Cut Features:

We have not decided to cut any features so far.

What each person worked on:

1. Julien Brenneck
 - Julien was responsible for creating the components to render the contents of the navbar at the top of each screen, Band page screen and the Band settings screen.
2. Liam Rothschild-Shea
 - Liam was responsible for creating the components to render the contents of the Homepage screen and the Chat screen.
3. Sean Morris
 - Sean was responsible for creating the components to render the search screen and the search results screen.
4. Yu Zheng
 - Yu was responsible for creating the components to render the Events screen and the Event creation screen.
5. Nikhil Garg
 - Nikhil was responsible for creating the components to render the Profile page screen and the profile settings screen.
6. Each person was responsible for the writeup of the components they made.
