Bugs/fixes:

At the time of writing this, most of the project has not been implemented dynamically and therefore every page of the site being counted as a "bug". We will continue to work throughout the week to make components and pages dynamic.

The CSS is broken now that we have included react-router in the project. We will go throuhg the CSS and components and clean up the conflicting CSS.

Key React Components:

Contributions:
- Liam Rothschild-Shea
  - Responsible for making the Homepage into a dynamic page.
- Julien Brenneck
  - Responsible for making the bandpage into a dynamic page.
- Sean Morris
  - Responsible for making the searchpage into a dynamic page.
- Yu Zheng
  - Responsible for making the calendar into a dynamic page.
- Nikhil Garg
  - Responsible for making the profilepage into a dynamic page.

Cut Features:

The chat page has been cut due to it's complexity and the time requirement the team is trying to meet.
